## KEEP OUT OF REACH OF CHILDREN

## WARNING

Causes serious eye irritation. Causes skin irritation. Harmful if swallowed. Harmful in contact with skin. May cause damage to organs through prolonged or repeated exposure.

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.  
(If you do not understand the label, find someone to explain it to you in detail.)

## PRECAUTIONARY STATEMENTS

Do not breathe mist or vapor. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye and face protection, protective gloves and protective clothing.

### FIRST AID

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

**IF ON SKIN:** Wash with plenty of water. Immediately call a poison control center or doctor for treatment advice. Take off immediately all contaminated clothing and wash it before reuse.

**IF SWALLOWED:** Immediately call a poison control center or doctor for treatment advice. Rinse mouth. Get medical attention if you feel unwell.

### STORAGE AND DISPOSAL

Do not reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the web page at [www.agrecycling.org](http://www.agrecycling.org). Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in accordance with Federal, state and local laws and regulations.

# GRAVITY® L 12-0-0

## WITH PROPRIETARY BLEND TECHNOLOGY

## PROMOTES GREEN-UP AND DARK GREEN COLOR

### GENERAL INFORMATION:

Gravity L 12-0-0 with Proprietary Blend Technology is a liquid fertilizer specifically formulated for all turf, ornamental, and horticultural applications. Gravity L 12-0-0 with Proprietary Blend Technology contains ferrous sulfate, urea, and manganese sulfate that will promote green-up and dark green color of plants.

DO NOT APPLY NEAR WATER, STORM DRAINS, OR DRAINAGE DITCHES. DO NOT APPLY IF HEAVY RAIN IS EXPECTED.

### DIRECTIONS FOR USE:

#### READ ENTIRE LABEL BEFORE USING

Gravity L 12-0-0 with Proprietary Blend Technology can be mixed with most common pesticides. A jar test should be used to confirm compatibility. Gravity L 12-0-0 with Proprietary Blend Technology should not be mixed with strong acids as product degradation will occur and the fertilizer will precipitate. Gravity L 12-0-0 with Proprietary Blend Technology may be used on greens, tees, fairways, roughs, and other turf areas composed of turfgrasses including, but not limited to: Bluegrass, Perennial Ryegrass, Tall Fescue, Annual Bluegrass, Bentgrass, Bahiagrass, St. Augustinegrass, Zoysiagrass, Centipedegrass, Seashore Paspalum, and Bermudagrass. For best results do not irrigate or mow until sprayed area has completely dried.

\* On centipedegrass do not apply with other fertilizers, pesticides or specialty products when temperatures can exceed 90°F.

#### GOLF COURSES

Gravity L 12-0-0 with Proprietary Blend Technology should be applied at 2-12 fl. oz. per 1,000 sq. ft. in 3 to 7 applications per year, depending on need and the fertilization program in your region. Spray volumes can range from

0.5 to 4 gallons per 1,000 sq. ft. for adequate coverage. For tank mixtures containing amine formulations of herbicides, spray volumes greater than 2 gallons per 1,000 sq. ft. are recommended.

#### LAWNS AND OTHER TURF AREAS

Gravity L 12-0-0 with Proprietary Blend Technology should be applied at 4-16 fl. oz. per 1,000 sq. ft. in 3 to 5 applications per year, depending on need and the fertilization program in your region. Spray volumes can range from 0.5 to 4 gallons per 1,000 sq. ft. for adequate coverage. For tank mixtures containing amine formulations of herbicides, spray volumes greater than 2 gallons per 1,000 sq. ft. are recommended.

#### HERBACEOUS ORNAMENTALS

Apply 40-60 fl. oz. per 1,000 square feet of landscaped area and water in. For container grown products apply a foliar spray or soil drench at a rate of 0.25 to

0.5 gal per 100 gals of water. Do not apply directly to flowers or flower buds.

#### WOODY ORNAMENTALS

Apply 40-60 fl. oz. per 1,000 square feet of landscaped area and water in. For container grown products apply a foliar spray or soil drench at a rate of 0.5 to 2 gal per 100 gals of water.

#### TREES

As a soil drench, use 16 fl. oz. in 2 gallons of water per inch of trunk DBH. Thoroughly drench area around trunk. Apply 40-60 fl. oz. per 1,000 square feet of landscaped area and water in. As a foliar spray, apply at a rate of 0.5 to 2 gal per 100 gals of water.

# GRAVITY® L 12-0-0

WITH PROPRIETARY BLEND TECHNOLOGY

PROMOTES GREEN-UP AND DARK GREEN COLOR

## BACKPACK APPLICATION

Mix 1-2 oz. per gallon of water.

A number of variables influence the rate of application necessary to prevent or correct a specific deficiency. For best results, follow good agronomic practices and conduct soil and tissue tests. Additional fertility may need to be supplied from other sources. For specific recommendations for your plants, consult your state's recommendations or your local plant expert.

**Note:** For application rates suitable for your geographical area or the maximum allowed non-nutrient application rates per acre, consult a trained soil specialist (local horticulturalist) or contact the manufacturer or distributor.

## MIXING INSTRUCTIONS

Add ½ water to tank. Add Gravity L 12-0-0 with Proprietary Blend Technology. Agitate while adding remaining water. Add urea or other fertilizers, or pesticides. Add amine herbicides last, continue to agitate tank contents. Spray contents as soon as possible. Gravity L 12-0-0 with Proprietary Blend Technology tank mixes are generally stable; however, agitate well before spraying if the mixture has been standing for over 24 hours.

## SPRAY COVERAGE AND DRIFT CONTROL

To optimize spray coverage or deposition, and to reduce drift, include Droplex adjuvant.
